

Compendium of augmented blended teaching: 12 Top Tools

The First Newsletter of ACADIGIA is about the first phase of the project: **01. Compendium of augmented blended teaching**. This result aims to develop and study guiding materials that enable a fast introduction and the usage of tools for blended methods in the Polytechnic HEIs.

12 Top Tools:

The ACADIGIA team analysed and tested the effectiveness of a set of available free tools that could be implemented in a blended learning in vary disciplines. Together they listed the 12 best options for the acadigia users, with specific video tutorials and a written guide on how to use the tools properly.

How to access the “hottest” online tools in Blended Learning:

STEP 1: Visit the ACADIGIA website and choose one of the following 12 tools:

www.acadigia.eu/results

- Blackboard
- Google Classroom
- Jupyter Notebook
- Kahoot
- Kaltura
- Microsoft Forms
- Microsoft Teams
- Microsoft Whiteboard
- Moodle
- Skype
- WebEx
- Zoom

STEP 2: Select a tool, visit the tool and use both guides:

Blackboard

Evaluation of Blackboard

What is Blackboard?

Blackboard

- Blackboard is leading EdTech company and a popular and widely used collaborative learning platform.
- It can usually be accessed through the school or university website.
- Blackboard also has a mobile app which is popular amongst students and teachers.
- The platform is primarily used for teaching and storing module content such as documents and other files.
- It can also be used for examinations, setting quizzes, as a chatroom function and student interaction in a variety of other virtual learning spaces.

What will you find in the Tutorials?

1.What is the Tool

2.How to Test the Tool

3.Functionalities supporting

Blended Learning

4.Supporting Digital Resources

5.Supporting Teaching and Learning

6.Supporting Assessment

Stay Tuned...

The ACADIGIA consortium will share the results of the IO2: Training the mentors, very soon!
