

IO2. Training the mentors

This IO provided a set of guiding materials that enable a fast introduction and the usage of tools for blended methods in the Polytechnic HEIs. As a direct result, the content will allow HEIs to reinvent/rethink their role according to the flagship EU frameworks and will also promote a fast diagnostic and grasp the basic use of the most recent open pedagogic tools.

Transversal qualities for effective mentoring and ACADIGIA Training content:

Mentoring relationship process

Collaborative partnerships

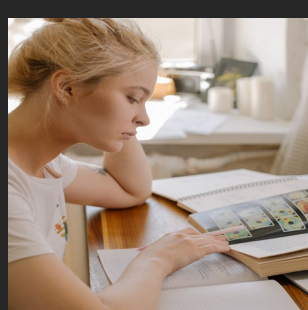

Solution-Oriented Thinking

Communication and interpersonal skills

Integrating EU Digital Education Frameworks

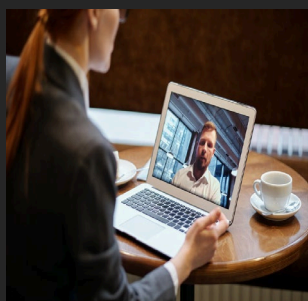

Digital Learning Resources

Designing digitally enhanced learning and teaching

Designing digitally enhanced evaluation and assessment

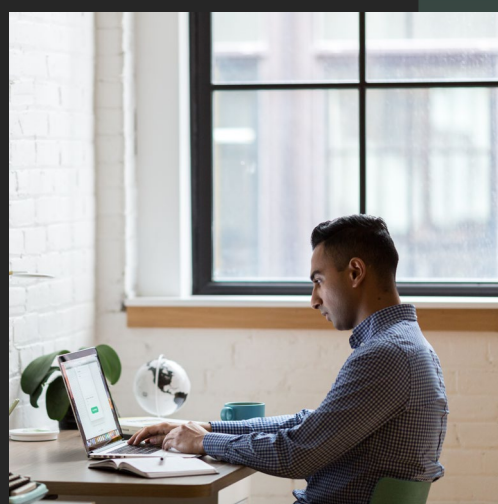

Open education resources, tools, practices

The Rising of the mentors

ACADIGIA short-term joint staff training event happened in July in Porto (Portugal), at the Instituto Superior de Contabilidade e Administração do Porto (ISCAP). The Course was presented to mentors of different European Universities in the field of mentorship and digital competences.

The course had the duration of 5 days where all the theoretical and practical information of the course/handbook prepared by the consortium was implemented. The course was extremely dynamic with practical activities, brainstorms, creative moments and socialization! The main purpose was to prepare the mentors for the next step of the project, the: **IO3 Bringing ACADIGIA to live.**

Stay Tuned..

The consortium will soon share the results of the **IO3: Bringing ACADIGIA to life**
